Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 27 June 2002.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

1. Applicant's election of Species C and W in Paper No. 26 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). Furthermore, since Applicant canceled all the claims and wrote new claims related to elected species restriction in paper #24, mailed on April 1, 2002, a new species restriction is now required.

Election/Restrictions

2. This application contains claims directed to the following patentably distinct species of the claimed invention:

Groups	Species
Facestock Sheet Construction	A. facestock sheet, adhesive, and liner sheet
	B. glossy card stock
	C. tag sheet
	D. a layer of adhesive and film layer
	E. facestock sheet, adhesive layer, and film layer (dry laminate facestock sheet construction)
	F. uncoated tag sheet
	G. cardstock sheet
	H. dry laminate facestock
	I. tag facestock
	J. non-dry laminate facestock
	K. non-tag facestock construction
Printable Media Arrangement	L. matrix, two columns
	M. business cards
	N. single piece, single material card
	O. matrix block of business cards with waste face stock sheet
Adhering	P. adhesive

Art Unit: 1772

Mechanism	Q. with out adhesive
Edge Configuration	R. edge opposite infeed end edge is calendared
	S. thin end and thin end calendaring
	T. infeed edge thinner than a body
	U. lead in edge calendared
	V. exposed lead in strip
Liner Sheet	W. densified bleached kraft sheet
	X. base paper sheet
Through-cut Lines	Y. frame and grid
	Z. waste border
	AA. vertical and horizontal

Note: A complete response to the restriction requirement requires a species election from each of the groups above. Furthermore, Applicant is advised that some claims have more than one group and species in it, i.e. a claim contains two different species from two different groups. If all the species from a particular claim are not chosen as the elected species the claim will be considered non-elected.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, at least claims 282 and 337 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after

Art Unit: 1772

the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. Due to the complexity of the species election/restriction a telephone call was not made to request an oral election to the above restriction requirement

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Applicant's representative is more the welcome to call either the Examiner or her SPE to schedule an interview. The phone numbers for the Examiner and her SPE are provided below. However, Applicant's representative is advised any interview conducted before a first action on it's merits of the claims will not include a discussion of prior art, since no art has been applied to the claims.
